"PERKO" STREAMLINE COMBINATION LIGHT AND FLAG POLE HOLDER

For Outboard Motor Boats and Runabouts. Cast Bronze or Cast Silicon Aluminum

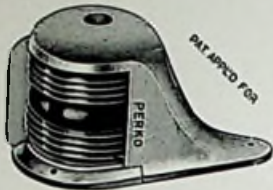

Fig. 512

Rear view showing method of changing bulb

This is one of the neatest and daintiest lights now on the market.

Glass is held in with screws permitting easy removal in case of breakage, bulb is changed easily by use of a patented feature as illustrated, which when closed is flush with the body of lamp, can be opened by a few turns of a screw driver or coin inserted in slot. Bulb, socket and wires are set in a swivel holder and wire cannot be twisted when turning cover.

Height 3 1/8"
Base 3 3/8 x 5 3/4"
Size Glass 2 1/2 x 3"
Flag Pole Socket 5/8"
Weight 1 7/8 lbs.

**"PERKO" CAST BRONZE COMBINATION LIGHT, RIDING
BITT AND FLAG POLE HOLDER**
For Outboard Motor Boats and Runabouts

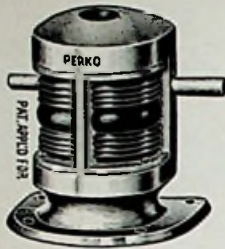

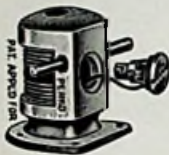

Fig. 510

Rear view showing method of changing bulb

This light can safely be used as a towing or riding bitt as same is made from one solid casting with good substantial base giving maximum strength. The pins or cleats are part of this solid casting. Glasses are set in with machine screws which can easily be removed in case of breakage. However it is not necessary to remove glass to change bulb as light is equipped with a patented feature in the back as illustrated. This when closed is flush with the back, same can be opened by merely a few turns of a screw driver or coin inserted in slot, bulb sockets and wires are set in a swivel holder and wire can not be twisted or snarled in turning cover.

Height 5 $\frac{3}{8}$ "
Base 4 $\frac{7}{8}$ x 4 $\frac{7}{8}$ "
Glass 2 $\frac{1}{2}$ x 3"

**"PERKO" CAST BRONZE COMBINATION LIGHT, RIDING
BITT AND FLAG POLE HOLDER**
For Outboard Motor Boats and Runabouts

Fig. 511

Back view of lamp

Rear view showing method of changing bulb

This light is the same as above in every way, having same patented feature of changing bulb, except that cleat is cast onto plate to which socket is affixed as illustrated. This feature does away with the use of a screw driver when changing bulb and allows rope to fit snug around cleat without shifting. Measurements same as above.

NOTE—The bottoms of these lights are grooved to take rope snugly and prevent it from slipping up around glass, keeping all pull at the bottom, the strongest part.

List Price Each

Polished Bronze	\$10.00
Nickel Plated	11.00
Chrome Plated	16.00

piece NOT two
pieces glued
together.

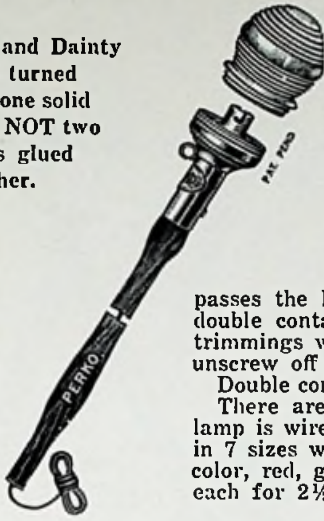

Fig. 492

"PERKO" ELECTRIC POLE LIGHT

Combination Electric Pole Light and Philippine Mahogany Flag Pole

These special "Perko" Poles are made from solid mahogany, turned from one piece, natural finish and varnished—a hole runs through the center of the pole for the wires—this makes the lamp waterproof. The electric lamp on top of the "Perko" Special Pole is a 2½" or 3" Threaded Base Fresnal Globe (which passes the law); electric connection is Ediswan base, double contact. (Automobile size). Lamp has brass trimmings with eye for flag halyard. (To insert bulb, unscrew off the globe).

Double contact plugs are connected to the end of wire. There are none equally made on the market. The lamp is wired as shown in photo. Poles are furnished in 7 sizes with lamp attached. Can be had with solid color, red, green or blue globes, add extra to list 75c each for 2½" or 3" globes.

List Price Each, complete as shown.

"PERKO" COMBINATION 3 in 1 BOW PLATE

A Bow Plate, Flag Pole Holder and a Pair of Chocks

Pat. applied for

Fig. 499

Cast Bronze or Cast Silicon Aluminum
 Chocks for $\frac{3}{8}$ " Rope.
 Pole Socket for $\frac{1}{2}$ " or $\frac{5}{8}$ " Pole.
 Size of Plate $4\frac{1}{8}$ " x $4\frac{3}{8}$ ".
 Net Weight, Bronze, 13 oz.
 Net Weight, Aluminum, $4\frac{1}{4}$ oz.

Diameter F.P. Socket		List Price Each
$\frac{1}{2}$ " or $\frac{5}{8}$ "	Polished Bronze	\$3.00
$\frac{1}{2}$ " or $\frac{5}{8}$ "	Polished Aluminum	2.50
$\frac{1}{2}$ " or $\frac{5}{8}$ "	Chrome Plated	4.80
$\frac{1}{2}$ " or $\frac{5}{8}$ "	Nickel Plated	3.50

"PERKO" COMBINATION BOW PLATE

Bow Chocks and Lanyard Eye

Cast Bronze or Cast Silicon Aluminum

Fig. 539

Chocks for $\frac{3}{8}$ " rope.
 Eye for $\frac{3}{8}$ " or $\frac{1}{2}$ " rope.
 Size of Plate $4\frac{1}{8}$ " x $4\frac{3}{8}$ ".
 Net Weight Bronze, 11 oz.;
 Net Weight Aluminum, 4 oz.

List Price Each			
Polished Bronze	Nickel Plated	Chrome Plated	Aluminum
\$3.00	\$3.50	\$4.80	\$2.50

"PERKO" OUTBOARD BOW PLATE

With Lanyard Eye

Fig. 494

Made of cast bronze or cast silicon aluminum

For $\frac{3}{8}$ " or $\frac{1}{2}$ " rope.

Size of plate $4\frac{1}{8}$ " x $4\frac{3}{8}$ ".

Net Weight 10 oz. Bronze.

Net Weight $2\frac{1}{2}$ oz. Aluminum.

List Price Each			
Polished Bronze	Nickel Plated	Chrome Plated	Aluminum
\$1.30	\$1.60	\$2.25	\$1.30

"PERKO" LIFTING HANDLE AND CLEAT

Cast Bronze

Fig. 540

Made from one solid casting—neat and practical—
 makes good strong cleat for tying up or towing.

Length Overall	Height	Base	Length of Grip	Weight Bronze
$4\frac{5}{8}$ "	$2\frac{1}{4}$ "	$1\frac{1}{2}$ x $2\frac{1}{2}$ "	$3\frac{3}{4}$ "	11 oz.

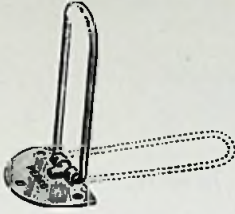

Fig. 514

Folds down when not in use, for bow and combination lights.

Brass throughout.

Fits the lights correctly.

List Price Each

Polished Brass\$1.20

"PERKO" EMERGENCY GASOLINE CANS

View showing can when in use.

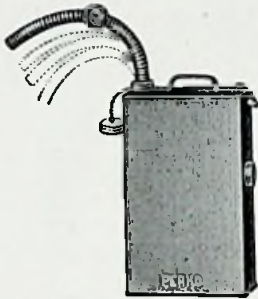

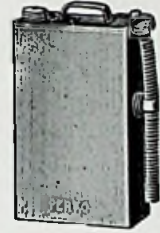

Fig. 515

No boat owner can afford to be without an emergency gasoline can. These are especially adaptable for use on out-board boats while racing as they are furnished with a large spout and ventilator, allowing gasoline to run quickly, a copper mesh strainer is soldered into cap, holding spout. An extra cap is placed on side of spout and screws on threaded lug on side of can when not in use. This permits storing can in small space. Spout is flexible tubing and can be bent in any direction. Can is made of heavy tin and painted red. Cover for opening is attached permanently to can by rivet and small brass chain. Same cannot be lost when not in use.

View showing can when not in use.

NEW "PERKO" SEARCHLIGHT

Low Voltage—High Power—6, 12, 24, 32, 110 Volt

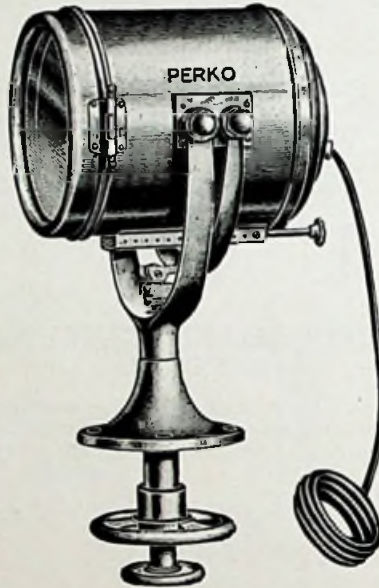

The Last Word in Searchlights

Having a glass mirror reflector, made by Bausch & Lomb Optical Co. and following designs of the U. S. Navy for long distance projection.

Searchlight has a new design of focusing arrangement very easily controlled and containing no wires to twist or break. Wheel controls are used on all sizes of pilot house type (as illustrated) for obtaining vertical or horizontal position of beam. Deck type has single yoke standard and control handle on back of body. Body is extra heavy brass with bronze castings.

An exceptionally good feature of this searchlight is that it uses a standard searchlight bulb, carried in stock by any electrical dealer. The boat owner who has had trouble obtaining searchlight bulbs will appreciate this.

Patent
Pending

"PERKO" ELECTRIC CABIN FIXTURES

Miniature Size

Fig. 1006

Brass or nickel plated fixtures, miniature size, pull chain, D.C. Ediswan base.

6 Volts to 110 Volts
 Holophane ball globe 3" O.D. Drop, 4 7/8"
 Diam. of Wall Plate, 2 1/8" Net Weight, each, 1/2 lb.
 Extends from wall 4 3/8"

	List Price Each
Polished Brass or Nickel Plated	\$5.00
Chrome Plated	8.00

These measurements apply to all numbers on this page.

Fig. 1006 1/2

With Turn Switch, same as above.

	List Price Each
Polished Brass or Nickel Plated	\$3.50
Chrome Plated	5.60

Fig. 1016 1/2

With Pull Chain, Open Shade.

	List Price Each
Polished Brass or Nickel Plated	\$4.50
Chrome Plated	7.20

Fig. 1016

With Turn Switch.

	List Price Each
Polished Brass or Nickel Plated	\$3.00
Chrome Plated	5.00

Can also be had without switches, known as Keyless.

ON ALL FIXTURES

Prices do not include Bulbs.

When ordering bulbs—specify voltage and candlepower, frosted or clear.

THE "PERKO" MARINE TYPE—ELECTRIC FIXTURES

These Electric Fixtures are of the same design as the oil lamp, made in miniature size with pull chain sockets, medium screw base socket, (Edison size), Ediswan double contact bayonet base socket, and candelabra screw base—all wired cast bronze bracket. All parts threaded, brass throughout. Design patent pending.

"PERKO" COMBINATION POST LIGHT, RIDING BITT AND FLAG POLE HOLDER

CAST BRONZE—FOR CLASS 1 BOATS

Closed

Fig. No. 502

Open for Rebulbing

Body cast in one piece with threaded top for changing bulb or removing glass. Large thread allows easy removal and replacing of top.

Height overall, 4 7/8"
Diam. of base, 6 1/2"

Size of glass, 3 3/8" x 3 3/8"
Diam. flag pole socket, 1"

Net Weight, 5 1/2 lb.
List Price Each

Polished Bronze	\$12.00
Nickel Plated	13.00
Chrome Plated	18.50
Nickel Silver	13.20

Double contact sockets regularly furnished. Standard Edison screw base on request. Same prices as above.

CAST BRONZE STERN LIGHTS

Improved

Double Contact Ediswan Base Socket and clear fresnal glass.

Size of Glasses, 3 3/8" x 3 1/2" Height over all 7"
Diam. Lamp, 3 1/2" Net Weight 2 3/4 lbs. Diam. Base, 4 1/8"

List Price Each

Polished Bronze	\$ 8.00
Nickel Plated	9.00
Nickel Silver	9.00
Chrome Plated	12.50

With Ruby-Green or Blue Glass add to List Price \$1.50.

Fig. 375

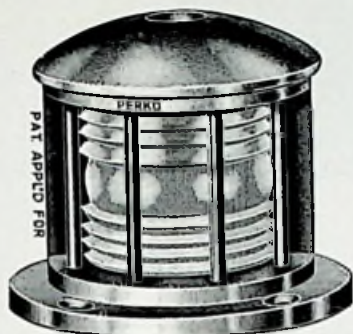

Note—Any height desired can be secured by substituting required length of 1" I. P. S. brass tube (standard thread) for the brass nipple joining the two parts of pedestal "A" as we furnish it.

Can also be had with Standard Edison Socket.

"PERKO" BOW POST LIGHT, RIDING BITT AND FLAG POLE HOLDER

CAST BRONZE—FOR CLASS 2 BOATS

Body cast in one piece with threaded top for changing bulb or removing glass—large thread allow easy removal and replacing of top—serves purpose of a bow light and good substantial bitt combined, as body and base is of heavy cast bronze with good heavy guards protecting glass from breakage.

Closed

Height overall, 6½"
Diam. base, 7¼"

Open for Rebulbing
